**Email:** lohith.ganipisetty9999@gmail.com | **Phone:** +91-9160184550

**GitHub:** www.github.com/ganipisettylohith | **LinkedIn:** www.linkedin.com/in/lohith-ganipisetty

## PROFESSIONAL SUMMARY:

Developing web and mobile applications using Next.js, React, TypeScript, Python, and PostgreSQL. Building AI-powered agent solutions, intelligent chat systems, and document processing platforms. Managing code deployment through Git, Bitbucket, CI/CD pipelines, and AWS while ensuring application performance, scalability, and reliability.

## Highest Qualification:

**B-Tech** —Computer Science Engineering (Cybersecurity)

**Graduate:** July 2025

**College:** Swami Vivekananda Institute of Technology, Secundrabad.

## Training & Certification:

- Python Full Stack Development Certification – Career Bridge IT Services
- Python Essentials 1 and Essentials 2 Certifications – CISCO
- Software Engineering Certification – IBM

## TECHNICAL SKILLS:

- Languages: Python, JavaScript
- Frameworks: Django, React, Bootstrap
- Web: HTML, CSS, REST APIs
- Databases: MySQL
- Tools: GitHub, Wireshark, Bitbucket, HostGator
- Concepts: OOP, API Design, Full Stack Development, Cybersecurity Basics, Hosting, Git Commands

## PROJECTS:

- AI-Powered Knowledge Retrieval Platform:** Built an enterprise AI web application for intelligent document search and conversational assistance using RAG architecture. Developed document ingestion, semantic search, vector database integration, user authentication, and chat management features. Deployed and maintained the application on AWS using Git, Bitbucket, and CI/CD pipelines.  
**Key Technologies:** Next.js, TypeScript, Python, FastAPI, PostgreSQL, AWS, Git, Bitbucket, CI/CD.
- E-Commerce Web Application (Django):** Developed a full-stack e-commerce platform with user authentication, product, shopping cart. Implemented RESTful APIs, order management, payment integration, and admin dashboard for manipulate the database.  
**Key Technologies:** Python, Django, HTML, CSS, Bootstrap, JavaScript, MySQL

## EXPERIENCE:

- Working as **Technical Intern** in Dream Sports Olympic private ltd.  
**From**– April 1st

**Description:** Developing and maintaining web and mobile applications while building AI-powered agent solutions and intelligent automation platforms. Managing end-to-end development, version control with Git and Bitbucket, CI/CD implementation, and application deployment on AWS to deliver scalable and reliable solutions.
